## WORK EXPERIENCE

### Software Developer

January 2021 – Present (4+ Years)

#### Acurus Solutions (Healthcare IT) · Chennai, Tamil Nadu

- Architected and delivered **12+ automation tools** for healthcare operations, reducing manual workload by **70–90%** and saving hundreds of hours monthly across cross-functional teams.
- Improved patient data-entry efficiency by **50–65%** through optimised WinForms UI; reduced reporting cycle time by **60–75%** via MySQL stored procedure and LINQ query tuning.
- Designed and deployed production-grade **RESTful APIs** using ASP.NET Core Web API with full Swagger documentation; built and shipped Selenium-based automated test suites.
- Maintained **95%+ test coverage** across all modules using NUnit and xUnit; ensured zero critical regression defects across quarterly releases.
- Owned full SDLC of critical healthcare modules; **reduced senior-developer dependency by 40%** through proactive ownership and thorough documentation.
- Managed CI/CD pipelines, sprint planning, code reviews, and version control across GitHub and GitLab in an **Agile/Scrum** environment.

## KEY PROJECTS

### Batch Automation System

C#, .NET Core 6, MySQL, WinForms · 2022–2023

Reduced batch processing from **2 hours to 40 minutes** (3× faster); eliminated 85–90% of manual effort end-to-end.

### Shipment Generation Tool

.NET, VB.NET, MySQL · 2023

Cut processing pipeline from **45–60 min to under 5 minutes** with 98% report accuracy.

### Text Request Automation

C#, Selenium WebDriver · 2024

Eliminated **100% of manual outreach effort**; reduced communication turnaround to near zero.

### HIM – PALISADES (Patient Management)

C#, VB.NET, MySQL · 2021–2022

Managed **10,000+ patient records**; improved data retrieval by 70%, reduced support tickets by 40%.

### RCM Health Plan Report Generator

VB.NET, MySQL, Excel Automation · 2023–2024

Automated Excel pipeline achieving **90% faster turnaround** and 30–35% accuracy improvement.

### Telegram Keka Attendance Bot

C#, Selenium WebDriver, Telegram Bot API · 2024

Auto-monitors Keka biometrics and **instantly pushes check-in/out alerts** via Telegram — zero manual tracking required.
